Denton Corner Construction Update

Mount Road, Avis Road, Seaford Road

13 November 2026

Recent progress

Resurfacing works on the A259 will be completed by the morning of Saturday 14 November. The existing road surface was removed and replaced during overnight closures.

New kerbs have been installed along the existing bus loop, which will connect to the new interchange. Buses travelling from Avis Road will use this route to access the interchange once the scheme is complete.

What's happening next week

Excavation will begin on the existing off-line cycle path on Avis Road to create a replacement in the same location, connecting to the shared-use pavement. Excavations and sub-base preparations will also be undertaken at the crossing point and on the shared use pavement that will connect with the bus loop and new interchange.

New street lighting, signs and road markings will also be installed overnight under temporary traffic signal control.

Traffic management in place and coming up

From Monday 9 November, the A259 Seaford Road, Denton Corner Roundabout, new bus gate and Mount Road bus loop will be closed overnight, between 7pm and 6am, for the above resurfacing work. The road will reopen as usual at 6am Saturday 14 November 2026.

Brighton & Hove Buses will be providing a shuttle bus service during the road closure. Please check the Brighton & Hove Buses website for the latest information and details regarding the shuttle service.

A signed diversion route will be in place via the A26, A27, A2270 and A259. We appreciate understand the disruption this may cause, however this work has been carefully planned and risk assessed to make sure our teams can carry out the resurfacing safely.

Access to Sainsbury's will be maintained throughout the works, subject to the traffic management arrangements in place.
