

Denton Corner Construction Update

Mount Road, Avis Road, Seaford Road

18 September 2026

Recent progress

Excavation has continued for the new bus interchange entrance, followed by installation of the drainage system in this area. Sub-base preparation for the new cycle lane on Seaford Road has also progressed, together with new kerb installation.

Excavation has also started on Avis Road, just north of the Mount Road junction, to support construction of the new footway and crossing point in this area.

What's happening next week

Installation of the drainage system for the new bus interchange is scheduled to continue, with kerbing works also due to commence in this area.

New kerbs will be installed along the new cycle lane on Seaford Road and at the new crossing point on Avis Road. Once complete, a tarmac surface will be laid.

Traffic management in place and coming up

A reduced speed limit is currently in place on the A259 Seaford Road to help keep site staff safe.

The pedestrian crossing on the A259 Seaford Road is also temporarily closed while work continues in the area, with the diversion route via the crossings on Drove Road and McKinlay Way. This closure will remain in place for the duration of the project.
