

Denton Corner Construction Update

Mount Road, Avis Road, Seaford Road

25 September 2026

Recent progress

Work has continued on installing the drainage system for the new bus interchange, and kerbs have started to be laid in this area.

Kerbs have also been installed along the new cycle lane on Seaford Road and at the new crossing point on Avis Way, with tarmac surfacing completed subsequently in these areas.

What's happening next week

Drainage works for the new bus interchange will continue, including the installation of new gullies and further kerbing in this area. The area will then be prepared for tarmac surfacing which is scheduled for the following week. Excavation works will also be carried out for the maintenance layby within the bus interchange.

Tactile paving will also be installed at the end of the new cycle lane and at the new crossing point on Avis Road.

Traffic management in place and coming up

A reduced speed limit is currently in place on the A259 Seaford Road to help keep site staff safe.

The pedestrian crossing on the A259 Seaford Road is also temporarily closed while work continues in the area, with the diversion route via the crossings on Drove Road and McKinlay Way. This closure will remain in place for the duration of the project.
