

Denton Corner Construction Update

Mount Road, Avis Road, Seaford Road

2 October 2026

Recent progress

Works to the drainage system for the new bus interchange have continued, including the installation of new gullies, alongside ongoing kerb-laying works in the area.

Tactile paving has been installed at the end of the new cycle lane on Seaford Road and at the new Avis Road crossing. The pavement's final tarmac surface will be laid in the coming weeks.

What's happening next week

Installation of new gullies will continue alongside kerb-laying works at the bus interchange. Once these works are complete, the carriageway will be surfaced with tarmac, followed by excavation for the interchange maintenance lay-by.

Traffic management in place and coming up

A reduced speed limit is currently in place on the A259 Seaford Road to help keep site staff safe.

The pedestrian crossing on the A259 Seaford Road is also temporarily closed while work continues in the area, with the diversion route via the crossings on Drove Road and McKinlay Way. This closure will remain in place for the duration of the project.
