Denton Corner Construction Update

Mount Road, Avis Road, Seaford Road

23 October 2026

Recent progress

Installation of the kerbing for the new footpath on Mount Road, adjacent to the bus interchange, has continued and the base course of tarmac has been laid. New dropped kerbs and tactile paving have continued to be installed at one of the three existing crossing points on Mount Road, once completed the surrounding areas will be resurfaced.

The final surface course of tarmac at the westbound bus stop on Seaford Road and along the new cycle lane was planned for Friday this week, however due to the adverse weather that is forecast this has been moved to next week.

What's happening next week

The final tarmac surface course is scheduled to be laid on the new cycle lane and at the new bus stop on Seaford Road. Installation of new dropped kerbs and tactile paving will continue at the three existing crossing points on Mount Road.

Excavation and sub-base preparation works will commence on the land to the rear of the existing bus stop and in the vicinity of the existing footpath.

On 29 October the new eastbound services will start to use the new bus interchange, while westbound services will use the Avis Close stop on Avis Road.

Traffic management in place and coming up

A reduced speed limit is currently in place on the A259 Seaford Road to help keep site staff safe.

The pedestrian crossing on the A259 Seaford Road is also temporarily closed while work continues in the area, with the diversion route via the crossings on Drove Road and McKinlay Way. This closure will remain in place for the duration of the project. This crossing will be reopened on 29 October.
