Denton Corner Construction Update

Mount Road, Avis Road, Seaford Road

30 October 2026

Recent progress

A new crossing island has been installed at the crossing point on Avis Way, near its junction with Mount Road. The new footway leading to the crossing has received its final surface course and is now in use. The signal-controlled crossing on Avis Road near the A259 roundabout is temporarily closed, with pedestrians diverted via the new crossing point.

Installation of new dropped kerbs and tactile paving have also continued at the three existing crossing points on Mount Road.

From 29 October the eastbound bus services have started using the new bus stop in the bus interchange, while westbound services will temporarily use Avis Close bus stop on Avis Road.

What's happening next week

Excavation works will commence near the signal-controlled crossing on Avis Road to allow the installation of a new drainage system. Excavation works will also commence in the same area to remove the existing cycle lane on Avis Road in preparation for its replacement.

New tactile paving will also be installed at the uncontrolled pedestrian crossing at the lower end of Station Road, at its junction with Mount Road.

Traffic management in place and coming up

A reduced speed limit is currently in place on the A259 Seaford Road to help keep site staff safe.

The pedestrian crossing on the A259 Seaford Road has now been reopened.

The signal-controlled crossing on Avis Road near the A259 roundabout is temporarily closed, with pedestrians diverted via the new crossing point also on Avis Road near the junction of Mount Road.
